Art Unit: 2611

DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-64, drawn to EPG comprising banner advertisement and scrolling the listings, classified in class 725, subclass 40.
 - II. Claims 65-136, drawn to EPG comprising panel advertisement, classified in class725, subclass 43.
 - III. Claims 137-138, drawn to EPG comprising advertisement contains video, classified in class 725, subclass 41.
 - IV Claims 139-140, drawn to EPG comprising automatically displaying an embedded advertisement, classified in class 725, subclass 42.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention group I has separate utility apart from an EPG such as displaying banners and scrolling listings in Internet browser web pages. Invention group II has separate utility apart from an EPG as displaying panel advertisements on TV programs themselves or displaying panel advertisements in web pages. Invention group III has separate utility apart from an EPG such as displaying advertisement with video on theater screen. Invention group IV has separate utility apart from a EPG such as automatically displaying embedded advertisement on electronic mail or Internet browser web pages. See MPEP § 806.05(d).

Application/Control Number: 09/070,604

Art Unit: 2611

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 5. A telephone call was made to Pejman Sharifi on March 21, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ngoc K. Vu whose telephone number is 703-306-5976. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Faile can be reached on 703-305-4380. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9314 for regular communications and 703-872-9314 for After Final communications.

Art Unit: 2611

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-0377.
